Forecast for Monday 28 Jun 2021

Weather: Dry with long clear spells overnight. Then a mainly dry day with some good spells of sunshine, just the outside chance of an isolated shower in the south. However cloud increasing across the far north and northwest through the evening bringing the risk of patchy light rain or drizzle towards midnight.

Chance of cloud free mountain/hill tops above 800m: Close to 100% through much of the day with little or no cloud below the summits, but falling to around 25% across the far north and northwest later

Visibility: Very good or excellent with good panoramic views of surrounding mountains and glens, but falling to several kilometres later in the far north and northwest with cloud becoming periods above 300-450m..

Met Office Aberdeen Meteorologist's View

Glen temperatures falling to plus 6 or 7 Celsius at dawn in south and rising to plus 20 or 21 Celsius in east. Strong sunlight brings the risk of sunburn and dehydration.

Forecast for Tuesday 29 Jun 2021

Weather: Low cloud and patchy rain or drizzle likely to affect the far north and northwest through much of the day, otherwise another fine, dry day with good spells of sunshine.

Maximum wind: Variable, mainly northerly, 10mph or less

Chance of cloud free mountain/hill tops above 800m: Close to zero across the far north and northwest, otherwise close to 100% through much of the day with little or no cloud below the summits.

Visibility: Very good, perhaps several kilometres in any drizzle in the far north and northwest with periods or persistent cloud above 300-450m.

Temperature: **Glens:** Around plus 6 or 7 Celsius at dawn rising to plus 21 or 22 Celsius by day
At 800m: Around plus 10 Celsius in north, otherwise plus 14 Celsius
Freezing level: Well above the summits
